EXPLANATORY NOTE

This Form 10-K/A (“Amendment No. 1”) amends the annual report on Form 10-K of MiMedx Group, Inc. for the fiscal year ended March 31, 2008, filed with the Securities and Exchange Commission (the “SEC”) on June 27, 2008 (the “2008 Form 10-K”). The primary purpose of this Amendment No. 1 is to provide the information required by Items 10-14 of Part III of the 2008 Form 10-K, which we originally intended to incorporate by reference from its 2008 definitive proxy statement into the 2008 Form 10-K. On the cover page of this Amendment No. 1, we have also corrected the disclosure noting that portions of the definitive proxy statement were to be incorporated by reference (the “Cover Page Change”).

This Amendment No. 1 has no effect on our consolidated statements of operations, statements of cash flows or balance sheets.

This Amendment No. 1 is limited in scope to Items 10-14 of Part III and the Cover Page Change, and does not amend, update or change any other items or disclosures contained in the 2008 Form 10-K or otherwise reflect events that occurred subsequent to the filing of the 2008 Form 10-K. This Amendment No. 1 continues to speak as of the date of filing of the 2008 Form 10-K except with respect to Items 10-14 of Part III and the Cover Page Change contained in Amendment No. 1, which speak as of the date of filing of this Amendment No. 1 or as otherwise disclosed in this Amendment No. 1.

As noted in Part I, Item I of the 2008 Form 10-K:

MiMedx Group, Inc. was originally formed as a Utah corporation on July 30, 1985 under the name Leibra, Inc. We later changed domicile, through a merger, to Nevada, and later changed our name to Alynx, Co. We had several additional name changes in connection with various business acquisitions, all of which were discontinued or rescinded. We were an inactive shell corporation for at least the past 10 years, seeking to acquire an interest in a business with long-term growth potential. On March 6, 2007, we (then Alynx, Co.) filed a registration statement with the SEC on Form 10-SB to register our Common Stock under the Securities Exchange Act of 1934. We have filed all periodic reports with the SEC since that time.

As used herein, the terms “the Company,” “we,” “our” and “us” refer to MiMedx Group, Inc., a Florida corporation (formerly Alynx, Co., a Nevada corporation), and our consolidated subsidiaries as a combined entity, except where it is clear that the terms mean only MiMedx Group, Inc.

On February 8, 2008, MiMedx Group, Inc., MMX Acquisition Corp., a Florida corporation wholly-owned by Alynx, Co., and MiMedx, Inc., a Florida-based, privately-held, development-stage medical device company (“MiMedx”), consummated the arrangement set forth in an Agreement and Plan of Merger between the parties (the “Merger”), whereby (i) MMX Acquisition Corp. merged with and into MiMedx; (ii) MiMedx became a wholly-owned subsidiary of the Company; and (iii) former MiMedx shareholders received approximately 97.25% of the post-merger company’s outstanding shares. On March 31, 2008, we merged into a Florida entity, thereby becoming MiMedx Group, Inc. and also effected a reverse split so that each former MiMedx shareholder owned the same number of shares in the Company as such shareholder held in MiMedx prior to the Merger.

Officers, directors and beneficial owners of more than ten percent of the Common Stock are required by SEC regulations to furnish the Company with copies of all such forms that they file.

Based solely on the Company’s review of the copies of Forms 3, 4 and 5 and the amendments thereto received by it for the fiscal year ended March 31, 2008 (“fiscal 2008”), or written representations from certain reporting persons that no Form 5s were required to be filed by those persons, the Company believes that during fiscal 2008, all filing requirements were complied with by its executive officers, directors and beneficial owners of more than ten percent of the Common Stock, with the exception of Mr. Brian Splan, who was unable to timely report an option grant in connection with his appointment and made a late Form 4 filing.

Audit Committee and Audit Committee Financial Expert

We are not a “listed company” under SEC rules and are therefore not required to have an audit committee comprised of independent directors. However, we intend to comply with the rules of the American Stock Exchange (“AMEX”), which require that as a “smaller reporting company,” as that term is defined in Item 10(f)(1) of Regulation S-K, the Audit Committee of the Board be comprised of at least two members, all of whom qualify as “independent” under the criteria set forth in Rule 10 A-3 of the Exchange Act.

Eichler and Ronald G. Wallace. The Board has determined that Mr. Papasan is an “audit committee financial expert” within the meaning of Item 407(d)(5)(ii) of SEC Regulations S-K. The charter for the Audit Committee is posted on our website at <http://mimedx.com/governance.aspx>.

As part of its duties, the Audit Committee:

- Oversees the accounting and financial reporting processes of the Company and the audits of the Company’s financial statements;
- Reviews the Company’s financial statements with management and the Company’s outside auditors, and recommends to the Board whether the audited financial statements should be included in the Company’s report on Form 10-K;
- Establishes policies and procedures to take, or recommends that the full Board take, appropriate action to oversee the independence of the outside auditors;

The Board of Directors has determined that each of the members is "independent." The charter for the Compensation Committee is posted on our website at <http://mimedx.com/governance.aspx>.

The primary objectives that we have considered up until the current time are: scientific and technological acquisition and development, the development of a sound business structure, and the raising of capital to permit the foregoing.

Named Executive Compensation for 2008

We currently have six named executive officers: Thomas W. D'Alonzo, John C. Thomas, Jr., Steve Gorlin, Thomas Koob, Ph.D., R. Lewis Bennett, and Brian J. Splan. Our executive compensation program is comprised of two components: annual cash compensation, paid in the form of annual salary and discretionary bonuses; and long-term compensation, paid historically in the form of options to purchase our Common Stock. Messrs. Gorlin and Thomas were paid only an annual base salary during 2008. Mr. Splan received a base salary and received long-term compensation in the form of options to purchase our Common Stock. Messrs. D'Alonzo, Bennett, and Koob received a base salary together with cash bonuses and long-term compensation in the form of options to purchase our Common Stock. The Compensation Committee retains the right to offer our named executive officers restricted shares of our Common Stock and other forms of equity compensation in lieu of, or in conjunction with, stock options.

Messrs. D’Alonzo, Thomas, Gorlin, Koob, and Splan have employment agreements with certain severance provisions and accelerated vesting of options upon termination of employment, as discussed in more detail under “Executive Officer Compensation — Employment Agreements,” below.

Setting Executive Compensation

Historically, we have not used a quantitative method or mathematical formulas exclusively in setting any element of executive compensation. We use discretion, guided in large part by the concept of pay for performance, and we consider all elements of an executive’s compensation package when setting each portion of compensation. There is no pre-established policy or target for the allocation between cash and equity incentive compensation.

When determining compensation for a new executive officer, factors taken into consideration are the individual’s skills, background and experience, the individual’s potential impact on our short-and long-term success, and competitive information from peer companies, industry-specific sources, and possibly from other prospective candidates interviewed during the recruitment process. We will generally make a grant of stock options when an executive officer joins us. Options are granted at no less than 100% of the fair market value on the date of grant. In determining the size of a stock option grant to an executive officer, we consider competitive data, and the individual’s scope of responsibility and continuing performance. Most importantly, since the stock option grant is meant to be a retention tool, we consider the importance to stockholders of that person’s continued service. Stock option grants to executives will generally vest over a period of three years.

Role of the Compensation Committee

Our Compensation Committee assists our Board in discharging its responsibilities relating to compensation of our executive officers. As such, the Compensation Committee has responsibility over matters relating to the fair and competitive compensation of our executives, employees and non-employee directors as well as matters relating to all other benefit plans. With regard to executive compensation, the Compensation Committee is charged specifically with annually reviewing and determining the compensation of our Chief Executive Officer. With regard to our other executive officers, the Compensation Committee reviews recommendations from our Chief Executive Officer and provides input on his recommendations as appropriate.

At its quarterly meeting in July of this year, our Compensation Committee resolved to perform a complete compensation study, including equity-based compensation, for purposes of recommending and implementing a compensation policy and procedure in line with other similarly-situated companies for fiscal 2009.

Elements of Compensation

Currently, our executive compensation philosophy is focused on current cash payment in the form of annual base salary and performance-based discretionary bonuses based upon performance. Performance criteria consists of two components, that of the Company achieving overall corporate goals and performance at the individual level. The relative importance of each of those two components for a given individual is based on management and the Board’s determination of such individual’s influence over the Company’s achievement of its goals. For example, our CEO’s compensation was based primarily on the Company’s performance rather than his individual performance. On the other hand, the personal scientific achievements of Dr. Koob, our Chief Scientific Officer, was the primary component considered in determining his performance-based compensation. Such goals include: scientific innovation, regulatory compliance, new business development, employee development, and other values designed to build a culture of high performance. These policies and practices are based on the principle that total compensation should serve to attract and retain those executives and employees critical to our overall success and are designed to reward executives for their contributions toward business performance that enhances stockholder value.

The Compensation Committee believes that the combination of cash compensation and equity compensation is important to align the interests of our executive officers with those of our shareholders and provides an effective motivational tool at this stage of our development.

The Compensation Committee plans to review and adjust those items at least once per fiscal year. During 2008, our CEO made recommendations to our Board of Directors regarding annual base salaries and discretionary bonus payments for our executive officers for fiscal 2008. Mr. D’Alonzo does not make any recommendation or participate in any decisions regarding his own compensation. The Compensation Committee and Board considered the recommendations of the CEO and Chairman of the Board in determining executive officer compensation for 2008.

Annual Cash Compensation

Annual cash compensation for our executive officers consists of a base salary and a discretionary bonus based upon the criteria discussed above. The 2008 annual cash compensation was also targeted to be competitive in relation to other similar companies. However, because of our short operating history, the total compensation of our executive officers is currently below average when compared with other publicly traded companies. The Compensation Committee or Board did not utilize the services of an independent compensation consulting firm to determine the cash compensation paid to executive officers in 2008. The Board determined based on certain of the executive officer's performance that discretionary bonuses in the amount of \$10,000 were appropriate and awarded such bonuses to Messrs. D'Alonzo, Koob, and Bennett accordingly during 2008.

Annual Base Salary

The annual base salaries of our executive officers and adjustments to executive officers' base salaries are generally based upon a subjective evaluation of the individual executive officer's performance by the Compensation Committee (or its predecessor). The evaluation is based upon non-quantitative factors such as the current responsibilities of each executive officer, the compensation of similarly situated executive officers at comparable companies, the performance of each executive officer during the prior calendar year, our performance during the prior calendar year, and the recommendations of our Chief Executive Officer. For 2008, Messrs. D'Alonzo, Gorlin, Splan, and Koob had base salaries of \$175,000. Mr. Thomas's annual base salary was \$140,000, and Mr. Bennett's base salary was \$180,000. Effective April 1, 2008, the annual base salaries for Messrs. D'Alonzo and Gorlin became \$182,000, Dr. Koob's annual base salary became \$183,700, and Mr. Thomas's annual base salary became \$145,600. Mr. Splan, who joined the Company in February 2008, did not have a change in his base salary. Effective January 1, 2008, Mr. Bennett's base salary became \$190,000.

Long-Term Equity Compensation

We believe that an appropriate level of equity-based compensation is part of a balanced and effective compensation program designed to align the interests of executive officers with those of our shareholders. We believe that the level of equity-based compensation awarded to our executive officers is adequate to align those officers' interests with the interests of our shareholders. Our long-term compensation program has historically been based principally upon awards of options to purchase our Common Stock under our stock incentive plans, which are described in more detail below. Awards of equity-based compensation are based upon a subjective evaluation of the executive officer's performance by the Compensation Committee and recommendations submitted to the Compensation Committee by our Chairman of the Board and Chief Executive Officer. The Compensation Committee's evaluation considers a number of non-quantitative factors, including the responsibilities of the individual officers for, and contribution to, our achievement of the criteria discussed above and their expected future contributions.

The Compensation Committee also considers whether prior awards of equity-based compensation were sufficient in deciding the amount of equity-based compensation to award in a particular year. Messrs. Gorlin and Thomas were founders of the Company and hold significant percentages of our Common Stock. The Compensation Committee also considers whether prior awards and current stock ownership are sufficient in deciding the amount of equity-based compensation to award in a particular year. On that basis, Messrs. Gorlin and Thomas were awarded no equity-based compensation during 2008.

In establishing the equity component of our executive compensation program, we considered the effects of Statement of Financial Accounting Standards No. 123R ("FAS 123R"), "Share-Based Compensation," which requires us to currently expense an estimated fair value of equity compensation.

Compliance With Internal Revenue Code Section 162(m)

Section 162(m) of the Internal Revenue Code of 1986, as amended, limits the corporate tax deduction to \$1 million for compensation paid to certain executives of public companies. However, performance-based compensation that has been approved by shareholders is excluded from the \$1 million limit if, among other requirements, the compensation is payable only upon attainment of pre-established, objective performance goals and the board committee that establishes the goals consists only of "outside directors." Additionally, stock options will qualify for the performance-based exception where, among other requirements, the exercise price of the stock option is not less than the fair market value of the stock on the date of grant, and the plan includes a per-executive limitation on the number of shares for which stock options may be granted during a specified period. All members of the Compensation Committee qualify as outside directors within the meaning and as defined by Section 162(m) and the regulations thereunder. Historically, the combined salary and bonus of each of our executive officers has been below this \$1 million limit. The Compensation Committee's present intention is to grant future compensation that does not exceed the limitations of Code Section 162(m).

Summary of Compensation

The following executive compensation disclosure reflects all compensation awarded to, earned by or paid to the executive officers named (the “named executive officers”) below for the fiscal year ended March 31, 2008 and the period from inception (November 22, 2006) through March 31, 2007. Payments and Benefits Upon Termination or Change of Control

The following table describes, for each of our named executive officers, the potential payments and benefits to which the officer would be entitled under his employment agreement, if any, and our other plans and arrangements, in the event of the triggering events listed in each column.

The amounts in each column are not mutually exclusive, and amounts in one column may be repeated or included within the amounts in another. Unless otherwise specified, the information set forth in the table below is estimated as of March 31, 2008, and assumes that a change of control of MiMedx Group, Inc. or termination of the named executive officer's employment with us, as the case may be, took place as of such date. The abbreviation "COC" in the tables refers to a "change of control" of MiMedx Group, Inc. as defined in the applicable agreement, if any.

Please note, except to the extent otherwise required under Section 409A of the Internal Revenue Code of 1986, the administrator of our stock option plans may modify or extend the terms and conditions for exercise, vesting, or earning of an award and/or accelerate the date that any award may become exercisable, vested, or earned, at any time, without any obligation to accelerate any other award. The value of the options presented in the table below represents the aggregate of the excess of the closing price of our Common Stock at March 31, 2008 of \$2.10, adjusted for the 0.3234758 for 1 stock split that became effective April 2, 2008 (\$6.49), over the exercise price of the options that would be accelerated.

MiMedx Group, Inc. Assumed 2006 Stock Incentive Plan

MiMedx adopted its 2006 Stock Incentive Plan effective November 27, 2006 (the “Plan”). The Plan was assumed by Alynx, Co. in the Merger, and thereafter by MiMedx Group, Inc. In July 2008, the Plan was renamed the “MiMedx Group, Inc. Assumed 2006 Stock Incentive Plan.” The purpose of the Plan is to encourage and enable selected employees, directors, and independent contractors of the Company and its affiliates to acquire or increase their holdings of Common Stock and other equity-based interests in the Company in order to promote a closer identification of their interests with ours, thereby stimulating their efforts to enhance our efficiency, soundness, profitability, growth and shareholder value. All share amounts in this section represents shares of MiMedx Group, Inc. Common Stock.

Table of Contents

As of March 31, 2008, options to acquire up to 2,912,500 shares have been granted under the Plan and are outstanding at a weighted average exercise price of \$2.37 per share, and options to purchase 1,200 shares have been exercised. No other types of awards have been made. Subject to specified adjustment, as of March 31, 2008 the maximum number of shares that we may issue pursuant to awards granted under the Plan may not exceed 5,500,000 shares. Of that number, the maximum that we may issue pursuant to incentive stock options is 5,500,000 shares. In addition, if and to the extent that Section 162(m) of the Code is applicable:

- we may not grant to any participant options or stock appreciation rights (“SARs”) that are not related to an option for more than 1,000,000 shares in any calendar year;
- we may not grant to any participant awards for more than 1,000,000 shares in any calendar year; and
- participants may not be paid more than \$2,000,000 with respect to any cash-settled award granted in any calendar year, subject in each case to adjustments as provided in the Plan.

The following will not be included in calculating the share limitations set forth above:

- dividends;
- awards which by their terms are settled in cash rather than the issuance of shares;
- any shares subject to an award that is forfeited, cancelled, terminated, expires, or lapses for any reason and shares subject to an award that are repurchased or reacquired by us; and
- any shares a participant surrenders or we withhold to pay the option or purchase price for an award or use to satisfy any tax withholding requirement in connection with the exercise, vesting, or earning of an award.

We will further adjust the number of shares reserved for issuance under the Plan and the terms of awards in the event of an adjustment in our capital stock structure or one of our affiliates due to a merger, consolidation, reorganization, stock split, stock dividend or similar event.

Administration, Amendment and Termination

Our Board has delegated the obligation to administer the Plan to the Compensation Committee. Subject to certain restrictions set forth in the Plan, the administrator has full and final authority to take actions and make determinations with respect to the Plan.

Subject to certain terms and conditions, the administrator may delegate to one or more of our officers the authority to grant awards, and to make determinations otherwise reserved for the administrator with respect to such awards.

Our Board may amend, alter, or terminate the Plan at any time, subject to certain exceptions and restrictions set forth in the Plan. Our Board may also amend, alter, or terminate any award, although participant consent may be required.

The administrator may amend the Plan and any award, without participant consent and, except where required by applicable laws, without shareholder approval, in order to comply with applicable laws. In addition, the administrator may make adjustments to awards upon the occurrence of certain unusual or nonrecurring events. The administrator may (subject to certain Plan limitations) cause any award or any portion thereof to be cancelled in consideration of an alternative award or cash payment of an equivalent cash value. The administrator also may determine that a participant’s rights, payments, and/or benefits with respect to an award will be subject to reduction, cancellation, forfeiture, or recoupment upon the occurrence of certain specified events. Except to the extent otherwise required under Section 409A of the Internal Revenue Code of 1986 (“Code Section 409A”), the administrator also may modify or extend the terms and conditions for exercise, vesting, or earning of an award and/or accelerate the date that any award may become exercisable, vested, or earned, without any obligation to accelerate any other award.

Table of Contents

In addition to the terms described in the section titled Common Terms of Incentive Plans below, the Plan contains the following terms and conditions.

Stock Appreciation Rights

Subject to the limitations of the Plan, the administrator may in its sole discretion grant SARs to such eligible individuals, in such numbers, upon such terms and at such times as the administrator shall determine. SARs may be granted to the holder of an option (a “related option”) with respect to all or a portion of the shares of Common Stock subject to the related option (a “related SAR”) or may be granted separately to an eligible individual (a “freestanding SAR”). The consideration to be received by the holder of a SAR may be paid in cash, shares of Common Stock (valued at fair market value on the date of the SAR exercise), or a combination thereof, as determined by the administrator. Upon the exercise of a SAR, the holder of a SAR is entitled to receive payment from the Company in an amount determined by multiplying (i) the difference between the fair market value per share of Common Stock on the date of exercise over the base price per share of such SAR by (ii) the number of shares of Common Stock with respect to which the SAR is being exercised. The base price may be no less than 100% of the fair market value per share of Common Stock on the date the SAR is granted (except in the case of certain substituted or assumed SARs in a merger or similar transaction).

SARs are exercisable according to the terms established by the administrator and stated in the applicable award agreement. Upon the exercise of a related SAR, the related option is deemed to be canceled to the extent of the number of shares of Common Stock for which the related SAR is exercised. No SAR may be exercised more than 10 years after it was granted, or such shorter period as may apply to with respect to a particular SAR. Each award agreement will state the extent to which a holder may have the right to exercise a SAR following termination of the holder’s employment or service with the Company or an affiliate, as determined by the administrator.

Restricted Awards

Subject to the limitations of the Plan, the administrator may grant restricted awards to such individuals in such numbers, upon such terms, and at such times as the administrator shall determine. Restricted awards may be in the form of restricted stock awards and/or restricted stock units that are subject to certain conditions which must be met for the restricted award to vest and be earned, in whole or in part, and be no longer subject to forfeiture. Restricted stock awards may be payable in Common Stock. Restricted stock units may be payable in cash or Common Stock, or a combination thereof.

Subject to certain limitations in the Plan, the administrator will determine the restriction period during which a participant may earn a restricted award and the conditions to be met in order for it to be granted or to vest or be earned. These conditions may include:

- payment of a stipulated purchase price;
- attainment of performance objectives;
- continued service or employment for a certain period of time;
- retirement;
- displacement;
- disability;
- death; or
- any combination of these conditions.

Subject to the terms of the Plan and Code Section 409A requirements, the administrator determines whether and to what degree restricted awards have vested and been earned and are payable. If a participant’s employment or service is terminated for any reason and all or any part of a restricted award has not vested or been earned pursuant to the terms of the Plan and the individual award, the participant will forfeit the award and related benefits unless the administrator determines otherwise.

Dividend and Dividend Equivalent

The administrator may provide that awards earn dividends or dividend equivalents, subject to restrictions set forth in the Plan. Such dividends or dividend equivalents may be paid currently or may be credited to a participant's account, subject to such restrictions and conditions as the administrator may establish.

Change in Control

Upon a "change in control," as defined in the Plan and subject to any Code Section 409A requirements, the administrator will have discretion to determine the effect, if any, on awards granted under the Plan. The administrator may determine that an award may vest, be earned or become exercisable, may be assumed or substituted, may be cancelled, or that other actions or no actions will be taken.

Assumption of the SpineMedica Corp. Stock Option Plans

Each stock option to purchase shares of SpineMedica Corp.'s Common Stock (each a "SpineMedica Stock Option") that was outstanding immediately prior to the acquisition of SpineMedica Corp., whether or not then vested or exercisable (each, an "Assumed Option"), as adjusted, was assumed by MiMedx when it acquired SpineMedica Corp., by Alynx, Co. upon consummation of the Merger, and thereafter by MiMedx Group, Inc.

MiMedx, Inc. 2005 Assumed Stock Plan (formerly the SpineMedica Corp. 2005 Employee, Director and Consultant Stock Plan)

MiMedx assumed the SpineMedica Corp. 2005 Employee, Director, and Consultant Stock Plan (the "2005 Assumed Plan") in connection with its acquisition of SpineMedica Corp. in July 2007. Following MiMedx's acquisition of SpineMedica Corp., the Board of Directors of MiMedx declared that no awards (as defined in the 2005 Assumed Plan) would be issued under the 2005 Assumed Plan. The 2005 Assumed Plan was assumed by Alynx, Co. in the Merger and thereafter by MiMedx Group, Inc. All share amounts in this section represent number of shares of MiMedx Group, Inc. Common Stock. As of March 31, 2008, options to acquire 1,156,250 shares are outstanding at a weighted average exercise price of \$1.80 share.

We will further adjust the number of shares reserved for issuance under the 2005 Assumed Plan and the terms of awards in the event of an adjustment in our capital stock structure or one of our affiliates due to a merger, consolidation, reorganization, stock split, stock dividend or similar event.

Administration, Amendment and Termination

Our Board has delegated the obligation to administer the 2005 Assumed Plan to the Compensation Committee. Subject to certain restrictions set forth in the 2005 Assumed Plan, the administrator has full and final authority to take actions and make determinations with respect to the 2005 Assumed Plan.

Our Board may amend, alter, or terminate the 2005 Assumed Plan at any time, subject to certain exceptions and restrictions set forth in the 2005 Assumed Plan. With the consent of the participant affected, the administrator may amend outstanding option agreements and stock grant agreements in a manner which may be adverse to the participant but which is not inconsistent with the 2005 Assumed Plan. In the discretion of the administrator, outstanding option agreements and stock grant agreements may be amended by the administrator in a manner which is not adverse to the participant.

The administrator may amend the 2005 Assumed Plan and any award, without participant consent and, except where required by applicable laws, without shareholder approval, in order to secure favorable federal income tax treatment as may be afforded incentive stock options, and to the extent necessary to qualify the shares issuable upon exercise or acceptance of any outstanding option granted under the 2005 Assumed Plan for listing on any national securities exchange or quotation in any national automated quotation system of securities dealers. The administrator also may determine that a participant's rights, payments, and/or benefits with respect to an award will be subject to reduction, cancellation, forfeiture, or recoupment upon the occurrence of certain specified events. Subject to certain restrictions set forth in the 2005 Assumed Plan and except to the extent otherwise required under Code Section 409A, the administrator also may modify or extend the terms and conditions for exercise, vesting, or earning of an award and/or accelerate the date that any award may become exercisable, vested, or earned.

Table of Contents

In addition to the terms described in the section titled Common Terms of Incentive Plans below, the 2005 Assumed Plan contains the following terms and conditions.

Stock Dividend and Stock Splits

If (i) the shares of our Common Stock shall be subdivided or combined into a greater or smaller number of shares or if the Company shall issue any shares of Common Stock as a stock dividend on its outstanding Common Stock, or (ii) additional shares or new or different shares or other securities of the Company or other non-cash assets are distributed with respect to such shares of Common Stock, the number of shares of Common Stock deliverable upon the exercise or acceptance of such option or stock grant may be appropriately increased or decreased proportionately, and appropriate adjustments may be made including, in the purchase price per share, to reflect such events.

Corporate Transaction

Upon a Corporate Transaction (as defined in the 2005 Assumed Plan) and subject to any Code Section 409A requirements, with respect to outstanding options the administrator shall (i) make appropriate provision for the continuation of such options by substituting on an equitable basis for the shares then subject to such options either the consideration payable with respect to the outstanding shares of Common Stock in connection with the Corporate Transaction or securities of any successor or acquiring entity, or (ii) upon written notice to the participants, provide that all options must be exercised, within a specified number of days of the date of such notice, at the end of which period the options shall terminate, or (iii) terminate all options in exchange for a cash payment equal to the excess of the fair market value of the shares subject to such options over the exercise price thereof. With respect to outstanding stock grants, the administrator shall either (i) make appropriate provisions for the continuation of such stock grants by substituting on an equitable basis for the shares then subject to such stock grants either the consideration payable with respect to the outstanding shares of Common Stock in connection with the Corporate Transaction or securities of any successor or acquiring entity, or (ii) upon written notice to the participants, provide that all stock grants must be accepted (to the extent then subject to acceptance) within a specified number of days of the date of such notice, at the end of which period the offer of the stock grants shall terminate, or (iii) terminate all stock grants in exchange for a cash payment equal to the excess of the fair market value of the shares subject to such stock grants over the purchase price thereof, if any. In addition, in the event of a Corporate Transaction, the administrator may waive any or all Company repurchase rights with respect to outstanding stock grants.

MiMedx, Inc. Assumed 2007 Stock Plan (formerly the SpineMedica Corp. 2007 Stock Incentive Plan)

MiMedx assumed the SpineMedica Corp. 2007 Stock Incentive Plan (the "2007 Assumed Plan") in connection with its acquisition of SpineMedica Corp. in July 2007. Following MiMedx's acquisition of SpineMedica Corp., the Board of Directors of MiMedx declared that no awards (as defined in the 2007 Assumed Plan) shall be issued under the 2007 Assumed Plan. The 2007 Assumed Plan was assumed by Alynx, Co. in the Merger and thereafter by MiMedx Group, Inc. All share amounts in this section represent number of shares of MiMedx Group, Inc. Common Stock. As of March 31, 2008, options to acquire 177,500 shares are outstanding at a weighted average exercise price of \$1.80 per share.

The following will not be included in calculating the share limitations set forth above:

- dividends;
- awards which by their terms are settled in cash rather than the issuance of shares;
- any shares subject to an award that is forfeited, cancelled, terminated, expires, or lapses for any reason and shares subject to an award that are repurchased or reacquired by us; and
- any shares a participant surrenders or we withhold to pay the option or purchase price for an award or use to satisfy any tax withholding requirement in connection with the exercise, vesting, or earning of an award.

We will further adjust the number of shares reserved for issuance under the 2007 Assumed Plan and the terms of awards in the event of an adjustment in our capital stock structure or one of our affiliates due to a merger, consolidation, reorganization, stock split, stock dividend or similar event.

Administration, Amendment and Termination

Our Board has delegated the obligation to administer the 2007 Assumed Plan to the Compensation Committee. Subject to certain restrictions set forth in the 2007 Assumed Plan, the administrator has full and final authority to take actions and make determinations with respect to the 2007 Assumed Plan.

Subject to certain terms and conditions, the administrator may delegate to one or more of our officers the authority to grant awards, and to make determinations otherwise reserved for the administrator with respect to such awards.

Our Board may amend, alter, or terminate the 2007 Assumed Plan at any time, subject to certain exceptions and restrictions set forth in the 2007 Assumed Plan. Our Board of Directors may also amend, alter, or terminate any award, although participant consent may be required.

The administrator may amend the 2007 Assumed Plan and any award, without participant consent and, except where required by applicable laws, without shareholder approval, in order to comply with applicable laws. In addition, the administrator may make adjustments to awards upon the occurrence of certain unusual or nonrecurring events. The administrator may (subject to certain limitations in the 2007 Assumed Plan) cause any award or any portion thereof to be cancelled in consideration of an alternative award or cash payment of an equivalent cash value. The administrator also may determine that a participant's rights, payments, and/or benefits with respect to an award will be subject to reduction, cancellation, forfeiture, or recoupment upon the occurrence of certain specified events. Except to the extent otherwise required under Code Section 409A, the administrator also may modify or extend the terms and conditions for exercise, vesting, or earning of an award and/or accelerate the date that any award may become exercisable, vested, or earned, without any obligation to accelerate any other award.

In addition to the terms described in the section titled Common Terms of Incentive Plans below, the 2007 Assumed Plan contains the following provision relating to change in control. The 2007 Assumed Plan also provided for additional types of awards; however, other than the options described in Common Terms of Incentive Plans no other or different awards have been or will be issued.

Change in Control

Upon a "change in control," as defined in the 2007 Assumed Plan and subject to any Code Section 409A requirements, all options and SARs outstanding as of the date of such change in control shall become fully exercisable, whether or not then otherwise exercisable. Any restrictions, performance criteria and/or vesting conditions applicable to any restricted award shall be deemed to have been met, and such awards shall become fully vested, earned and payable to the fullest extent of the original grant of the applicable award. Notwithstanding the foregoing, in the event of a merger, share exchange, reorganization, sale of all or substantially all of the assets of the Company, the administrator may, in its sole and absolute discretion, determine that any or all awards granted pursuant to the 2007 Assumed Plan shall not vest or become exercisable on an accelerated basis, if the Company or the surviving or acquiring corporation shall have taken such action, including but not limited to the assumption of awards granted under the 2007 Assumed Plan or the grant of substitute awards, as the administrator determines appropriate to protect the rights and interest of participants under the 2007 Assumed Plan.

Common Terms of Incentive Plans

The Plan, the 2005 Assumed Plan, and the 2007 Assumed Plan (collectively, the "Incentive Plans") contain the following terms and conditions.

Options

Each of the Incentive Plans authorizes the grant of both incentive stock options and nonqualified stock options. The administrator will determine the option price at which a participant may exercise an option. The option price may not be less than 100.0% of the fair market value on the date of grant (or 110.0% of the fair market value with respect to incentive stock options granted to a 10.0% or more shareholder) and also may not be less than the par value per share (subject to certain exceptions in the case of substitute or assumed options).

Unless an individual award agreement provides otherwise, a participant may pay the option price in cash or, to the extent permitted by the administrator and applicable laws, by tendering shares of Common Stock, by the withholding of shares upon exercise, by such other consideration as the administrator may deem appropriate, or a combination of the foregoing.

At the time of option grant, the administrator will determine the terms and conditions of an option, the period or periods during which an option is exercisable, and the option term (which, in the case of incentive stock options, may not exceed 10 years, or five years with respect to a 10.0% or more shareholder). Options are also subject to certain restrictions on exercise if the participant terminates employment or service.

Transfer and Other Restrictions

Each of the Incentive Plans provides that awards generally are not transferable other than by will or the laws of intestate succession or as may otherwise be permitted by the administrator, and participants may not sell, transfer, assign, pledge or otherwise encumber shares subject to such awards until the restriction period and/or performance period has expired and until all conditions to vesting the award have been met. As a condition to the issuance or transfer of Common Stock or the grant of any other benefit awarded under any of the Incentive Plans, we may require a participant or other person to become a party to an agreement imposing such conditions or restrictions as we may require.

Certain Federal Income Tax Consequences

The following generally describes the principal federal (and not state and local) income tax consequences of awards granted under the Incentive Plans as of this time. The summary is general in nature and is not intended to cover all tax consequences that may apply to a particular participant or to us. The provisions of the Internal Revenue Code of 1986, as amended (the "Code"), and related regulations and other guidance are complicated and their impact in any one case may depend upon the particular circumstances.

Incentive Options

The grant and exercise of an incentive stock option generally will not result in taxable income to the participant if the participant does not dispose of shares received upon exercise of such option less than one year after the date of exercise and two years after the date of grant, and if the participant has continuously been our employee from the date of grant to three months before the date of exercise (or 12 months in the event of disability). However, the excess of the fair market value of the shares received upon exercise of the option over the option price generally will constitute an item of adjustment in computing the participant's alternative minimum taxable income for the year of exercise. Thus, certain participants may incur federal income tax liability as a result of the exercise of an incentive option under the alternative minimum tax rules of the Code.

We are generally not entitled to a deduction upon the exercise of an incentive option. Upon the disposition of shares acquired upon exercise of an incentive option, the participant will be taxed on the amount by which the amount realized exceeds the option price. This amount will be treated as capital gain or loss.

If the holding period requirements described above are not met, the participant will have ordinary income in the year of disposition to the extent of the lesser of: (i) the fair market value of the stock on the date of exercise minus the option price or (ii) the amount realized on disposition of the stock minus the option price. We are generally entitled to deduct as compensation the amount of ordinary income realized by the participant.

Pursuant to the Code and the terms of each of the Incentive Plans, in no event can there first become exercisable by a participant in any one calendar year incentive stock options granted by us with respect to shares having an aggregate fair market value (determined at the time an option is granted) greater than \$100,000. To the extent an incentive option granted under any of the Incentive Plans exceeds this limitation, it will be treated as a nonqualified option.

Nonqualified Options

If a participant receives a nonqualified option, the difference between the fair market value of the stock on the date of exercise and the option price will constitute taxable ordinary income to the participant on the date of exercise. We generally will be entitled to a deduction in the same year in an amount equal to the income taxable to the participant.

Stock Appreciation Rights

The grant of an SAR will not result in taxable income to a participant or a tax deduction to us. Upon exercise of the SAR, the amount of cash and fair market value of shares received by the participant (determined at the time of delivery to the participant), less cash or other consideration paid (if any), is taxed to the participant as ordinary income and we generally will be entitled to receive a corresponding tax deduction.

Restricted Stock Awards

The grant of restricted stock awards will not result in taxable income to the participant or a tax deduction to us, unless the restrictions on the stock do not present a substantial risk of forfeiture or the award is transferable. In the year that the restricted stock is no longer subject to a substantial risk of forfeiture or the award is transferable, the fair market value of such shares at such date and any cash amount awarded, less cash or other consideration paid (if any), will be taxed to the participant as ordinary income, except that, in the case of restricted stock issued at the beginning of the restriction period, the participant may elect to include in his ordinary income at the time the restricted stock is awarded, the fair market value of such shares at such time, less any amount paid for the shares. We generally will be entitled to a corresponding tax deduction.

Restricted Stock Units and Dividend Equivalents

The federal income tax consequences of the award of restricted stock units or dividend equivalents will depend on the conditions of the award. Generally, the grant of one of these awards does not result in taxable income to the participant or a tax deduction to us. However, the participant will recognize ordinary compensation income at settlement of the award equal to any cash and the fair market value of any Common Stock received (determined as of the date that the award is not subject to a substantial risk of forfeiture or transferable). We are generally entitled to a deduction upon the participant's recognition of income in an amount equal to the ordinary income recognized by the participant.

Section 409A of the Internal Revenue Code of 1986

Code Section 409A imposes certain requirements on deferred compensation. We intend for each of the Incentive Plans to comply in good faith with the requirements of Code Section 409A including related regulations and guidance, where applicable and to the extent practicable. If, however, Code Section 409A is deemed to apply to an award, and the applicable Incentive Plan and award do not satisfy the requirements of Code Section 409A during a taxable year, the participant will have ordinary income in the year of non-compliance in the amount of all deferrals subject to Code Section 409A to the extent that the award is not subject to a substantial risk of forfeiture. The participant will be subject to an additional tax of 20% on all amounts includible in income and may also be subject to interest charges under Code Section 409A. We generally will be entitled to an income tax deduction with respect to the amount of compensation includible as income to the participant. We undertake no responsibility to take, or to refrain from taking, any actions in order to achieve a certain tax result for any participant.

Item 13. Certain Relationships and Related Transactions, and Director Independence

Transactions

The office space leased by MiMedx in Destin, Florida is owned by the Chairman of the Board of MiMedx, Steve Gorlin. The rental rate under this month-to-month lease is \$1,000 per month, which is the fair market value, based on current rents of similar office spaces in the building that are not owned by Mr. Gorlin, plus expense reimbursements. In fiscal 2008, we paid Mr. Gorlin approximately \$25,000 for rent, utilities and other expenses under this arrangement.

In August 2007, MiMedx began using an aircraft recently acquired by Gorlin Aviation, LLC, an affiliate of Mr. Gorlin, at a rate we believe is less than that charged by unrelated third parties. Neither MiMedx nor SpineMedica used the aircraft in fiscal 2007. From August through March 31, 2008, we spent a total of approximately \$105,000 on use of the aircraft.

Simpson Thacher & Bartlett, LLP (“Simpson Thacher”) provided services to MiMedx during fiscal 2008 in connection with an acquisition that we did not consummate. Simpson Thacher received approximately \$290,000 for those services. Mr. Charles Koob, who was a Director of MiMedx at the time, and is a Director of MiMedx Group, Inc., is retired from his position as a partner, and is now of counsel, to Simpson Thacher. Mr. Koob’s financial interest in these fees was nominal.

The charter for our Audit Committee, adopted in April 2008, requires the Audit Committee to review and approve in advance all transactions between us and our executive officers and directors, and to review and approve all director-related conflicts of interest between a director’s obligations to us and his or her personal interests.

Director Independence

We are not a “listed company” under SEC rules and are therefore not required to comply with the director independence requirements of any securities exchange. However, in determining whether our directors are independent, we intend to comply with the rules of the AMEX. The Company qualifies as a “smaller reporting company” as that term is defined in Item 10(f)(1) of Regulation S-K because its public float as of the last business day of the Company’s most recent second fiscal quarter was less than \$75.0 million. As a result, the rules of the AMEX require that at least 50% percent of the members of our Board be independent, which means that they are not officers of the Company and are free of any relationship that would interfere with the exercise of their independent judgment. The Board has determined that three of its six directors, Larry W. Papasan, Kurt M. Eicher, and Ronald G. Wallace, are “independent,” as defined by the listing standards of the AMEX, Section 10A(m)(3) of the Exchange Act, and the rules and regulations of the SEC. Mr. W. Hamilton Jordan served as Director of MiMedx and MiMedx Group, Inc. during fiscal 2008 and thereafter until his demise. The Board had also determined that Mr. Jordan was “independent” according to the same standards applied to the other independent directors.

Item 14. Principal Accounting Fees and Services

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Aidman, Piser & Company, P.A. (“Aidman Piser”) served as MiMedx’s independent registered public accounting firm as of March 31, 2007 and for the period from inception (November 22, 2006) through March 31, 2007. Aidman Piser served as our independent registered public accounting firm until June 12, 2008, when Aidman Piser resigned as a result of an agreement with Cherry, Bekaert & Holland, L.L.P. (“Cherry Bekaert”), pursuant to which Aidman Piser merged its operations into Cherry Bekaert and certain of the professional staff and partners of Aidman Piser joined Cherry Bekaert either as employees or partners of Cherry Bekaert and continued to practice as members of Cherry Bekaert. On June 9, 2008, prior to the resignation of Aidman Piser, we, with the approval of the Audit Committee of the Board, engaged Cherry Bekaert as our independent registered public accounting firm. Cherry Bekaert has served as our independent registered public accounting firm since that time.
