**MiMedx Announces Expectation to Exceed the \$92 Million
Top End of First Quarter Revenue Guidance**

Continues to Cooperate with Regulatory Agencies

Marietta, Georgia, March 15, 2018 – MiMedx Group, Inc. (NASDAQ: MDXG), a leading developer and marketer of regenerative and therapeutic biologics, today announced its expectation for first quarter of 2018 revenue to exceed the \$92 million high end of its previously released guidance. MiMedx reiterated its full-year 2018 revenue guidance range of \$383 million to \$387 million.

Parker H. “Pete” Petit, Chairman and CEO, commented, “This year started off strong, and we have continued to see momentum build through the quarter. With our current revenue pace and more than two-thirds of the first quarter completed, we are confident in our expectation that we will exceed \$92 million in revenue for the first quarter of 2018.”

“We are particularly pleased with the continual expansion of our customer accounts. Our total number of active accounts grew by approximately 27% in 2017, and we expect a similar level of growth this year,” added Bill Taylor, President and COO. “The first quarter has traditional headwinds due the resetting of annual insurance deductibles and changes in plan designs, as well as the typical winter weather obstacles that affect treatment days. Our sales planning and execution have again enabled us to overcome normal first quarter obstacles to exceed our initial guidance. This is very encouraging and shows that our momentum is building.”
